The directors present their Strategic Report on SP Smart Meter Assets Limited ("the Company") for the year ended 31 December 2023. This includes an overview of the Company's structure, strategic outlook including 2023 performance, and principal risks and uncertainties.

#### INTRODUCTION

The principal activity of the Company, registered company number SC554085, is the provision of smart meter assets. This activity will continue for the foreseeable future.

The ultimate parent of the Company is Iberdrola, S.A. ("Iberdrola") whose shares are listed on all four stock markets in Spain. The immediate parent of the Company is Scottish Power Retail Holdings Limited ("SPRH"). Scottish Power Limited ("SPL") is the United Kingdom ("UK") holding company of the ScottishPower Group ("ScottishPower") of which the Company is a member.

The Company is a wholly-owned subsidiary of SPRH whose group of companies include ScottishPower Energy Retail Limited ("SPERL"), which is responsible for the supply of electricity and gas to almost 4.5 million domestic and business customers throughout Great Britain ("GB"), including customer registration, billing, and handling of enquiries in respect of these services. Consequently, the Company is part of ScottishPower's Customer business division, (formerly known as the Energy Retail business) which is also responsible for the associated metering activity, including the smart meter installation programme, and managing its smart solutions activities including the UK's first nationwide installation service for air source heat pumps, solar panels, batteries and electric vehicles.

#### STRATEGIC OUTLOOK

#### **Operating review**

UK energy suppliers have been mandated by the UK Government to offer a smart meter to all domestic and small and medium-sized enterprise ("SME") business customers in one of the biggest UK-wide infrastructure programmes ever undertaken. The Company finances the purchase and installation of smart meter assets under an agreement with SPERL, and will continue to support SPERL's smart meter rollout obligations. The Company charges for meter provision on a periodic basis; to SPERL as the installing supplier and all other suppliers following a customer's decision to switch supplier.

The Company, as part of the Customer business division, remains committed to the rollout of smart meters across its domestic and SME customer base. It strongly supports the aims and objectives of the smart meter programme and believes that this investment in its infrastructure is critical to realising the smart energy future that it aspires to deliver for its customers, for its business, and to enable the UK to meet its legally binding target of net zero emissions by 2050.

The Company continues to focus on managing and tracking the portfolio of smart meters installed through the UK supplier electricity and gas network and ensuring that the returns from the significant investment made are maximised.

#### 2023 performance

		enue e (a))	•	ing profit e (a))		vestment e (b))
	2023	2022	2023	2022	2023	2022
Financial key performance indicators	£m	£m	£m	£m	£m	£m
	70.4	70.2	31.1	32.6	83.2	79.1

<sup>(</sup>a) Revenue and Operating profit as presented on page 13.

Revenue increased by £0.2 million, this includes higher revenues from the increased numbers of installed meters in the portfolio, offset by the impact of signed Meter Rental Agreement ("MRA") contracts during the year. This has resulted in higher refunds being issued to customers as a result of backdating to lower rental prices.

Operating profit decreased by £1.5 million. This is primarily due to an increase in the Company's depreciation charge as a result of acquiring more Property, plant and equipment offset against Other operating results which increased due to the number of early termination charges during the year.

Capital expenditure increased by £4.1 million primarily due to increased smart meter installation activity.

<sup>(</sup>b) Capital investment for 2023 is presented in Notes 3 and 4 on pages 18 and 19.

#### STRATEGIC OUTLOOK continued

#### Outlook for 2024 and beyond

The Company remains in a strong position for 2024 and beyond, now with over 2.5 million smart meters installed and plans to fund the installation of the remaining Customer Business customer base. The Company has been successful in concluding a number of meter rental agreements with energy suppliers and continues to pursue those remaining to secure the long-term strategic objectives of the asset portfolio.

Effective monitoring and management of its supply chain has allowed the Company to deal with issues arising from post-lockdown challenges and global conflicts. The impacts of these issues have reduced year-on-year and the market is considered relatively stable with no significant issues in the supply of components or upwards pressure on costs currently envisaged.

#### Financial instruments

In the current year the Company's financial instruments include Trade and other receivables, Trade and other payables and Loans and other borrowings. The Company has exposure to credit risk and treasury risk (comprising both liquidity and market risk) arising from these financial instruments.

Credit risk is the risk that a counterparty will not meet its contractual obligations under a financial instrument or customer contract, leading to a financial loss. Credit risk in respect of customers is mitigated by contracting with multiple counterparties and limiting exposure to individual counterparties to clearly defined limits based upon the risk of counterparty default. Credit risk from Iberdrola Group companies is considered to be low as no Iberdrola Group company has a credit rating lower than BBB+ (in line with the external credit ratings from S&P Global Ratings).

Liquidity risk is the risk that the Company will have insufficient funds to meet its liabilities and market risk is the risk of loss that results from changes in market rates (e.g. interest rates). Both are managed by ScottishPower's Treasury department who are responsible for arranging banking facilities on behalf of the Company. The Company produces short-term rolling cash flow requirements and if necessary any required funding is obtained via credit facilities already in place.

#### PRINCIPAL RISKS AND UNCERTAINTIES

The delivery of its strategy requires the Company to conduct business in a manner benefitting customers through balancing cost and risk, while delivering shareholder value and protecting its performance and reputation by prudently managing the risks inherent in the business. To maintain this strategic direction, ScottishPower, and so the Company, develops and implements risk management policies and procedures, and promotes a robust control environment at all levels of the organisation. Further details of ScottishPower's risk management practices can be found in the most recent Annual Report and Accounts of SPL.

The principal risks and uncertainties of the Company, that may impact current and future operational and financial performance and the management of these risks are described below:

REGULATORY AND POLITICAL RISK				
RISK	RESPONSE			
Compliance with regulatory obligations especially in the context of sudden changes of policy, or interventions outside established regulatory frameworks.	Positive and transparent engagement with all appropriate stakeholders to ensure that long-term regulatory stability and political consensus is maintained, and public backing is secured for the necessary investment in the UK energy system. Providing stakeholders with evidence of the risks of ad hoc intervention in markets.			

#### PRINCIPAL RISKS AND UNCERTAINTIES continued

CLIMATE CHANGE				
RISK	RESPONSE			
The risk that the Company's investments or operations have a significant impact on the environment and on national and international targets to tackle climate change.	The Company is committed to reducing its environmental footprint and responding to the risks and opportunities of climate change by:  • reducing emissions to air, land and water and preventing environmental harm;  • identifying and managing climate risks and opportunities, implementing adaptation measures where required;  • minimising energy consumption and use of natural and human-made resources; and sourcing material resources responsibly, cutting waste and encouraging reuse and recycling.			

GLOBAL FINANCIAL	MARKET VOLATILITY
RISK	RESPONSE
Impacts arising from market and regulatory reactions to events including global conflicts. As well as positive or negative changes in the UK economy.	Positive and transparent engagement with all appropriate stakeholders to ensure that long-term regulatory stability and political consensus is maintained, and public backing is secured for the necessary investment in the UK energy system. Providing stakeholders with evidence of the risks of ad hoc intervention in markets. In addition to monitoring ongoing developments, the Company adheres to a ScottishPower treasury risk management policy to
	mitigate financial risks.

HEALTH AND SAFETY				
RISK	RESPONSE			
A major health and safety incident in the course of operations could impact contractors, communities or the environment.	The Company has certified management systems in place to deliver activities as safely as possible. A ScottishPower Health and Safety function exists and provides specialist services and support for the Company in relation to health and safety. A comprehensive framework of health and safety policy and procedures, alongside audit programmes is established, which aims to ensure not only continuing legal compliance but also to drive towards best practice in all levels of health and safety operations.			

SUPPLY C	HAIN RISKS
RISK	RESPONSE
Interruption due to post-lockdown inabilities to restart efficient supply chains, made worse by global conflicts, increased risk of supplier failure due to the deterioration of industrialised economies and excess demand over supply.	Identifying potential shortages, delays and gaps in the supply of products and equipment. The supply chain is advised by the ScottishPower Procurement department in conjunction with advice from the Scottish Power Compliance, Legal and Risk departments. The upward pressure on costs due to the macroeconomic environment is managed, and strategies, such as expanding the Company's supplier base, are developed and implemented. The risk is spread through supply chain engagement.

#### PRINCIPAL RISKS AND UNCERTAINTIES continued

#### CYBER SECURITY RESPONSE RISK The Company operates within an environment where The Company, as part of ScottishPower, continues to focus there is the presence of sophisticated and opportunistic on enterprise security risks through enhanced internal governance, complemented by the adoption of a 'three cyber security threat actors motivated to identify and take advantage of flaws and weaknesses in the lines of defence' model with clear roles and responsibilities established. This has involved the appointment of a Company's cyber security defences. The Company, in ScottishPower Chief Information Security Officer as well as alignment with UK Regulation, takes the protection of its the creation of a Business Information Security Officer for Data very seriously. The Company, as part of ScottishPower, continues to invest significantly in its the division. technologies to enhance its capabilities to prevent, detect These risks are managed in accordance with the basic and respond to security threats. principles defined in internal cyber security rules promoting the safe handling of data, use of IT and The main risks are the confidentiality, integrity, and communications systems, use of operational technology availability of key information assets as well as other cyber security risks which may impact the Company's systems and assets, and other cyber assets, reinforcing reputation. detection, prevention, defence, and response capabilities against possible attacks. The Iberdrola Group, of which the Company is a part, currently has specific insurance against cyber risks, under the terms allowed by the insurance market, which is revised and updated periodically in view of the rapid

evolution and wide variety of cyber risks.

#### **ENGAGING WITH STAKEHOLDERS**

#### The importance of engaging with stakeholders

The Company strongly believes that effective and meaningful engagement with stakeholders, is key to promoting its success and values. Meaningful engagement with stakeholder groups supports the ethos of section 172 of the Companies Act 2006 which states that directors should have regard to stakeholder interests when discharging their duty to promote, in good faith, the success of the Company for the benefit of its members as a whole. Details of how the Company engages with its stakeholders, and how these activities influence the Company's operations, are set out below.

#### Key stakeholders

The Company, has four key stakeholder categories: customers; government and regulators; suppliers and contractors; and community and environment.

Behind these stakeholders are many people, and institutions, organisations and groups. All of them, with their decisions and opinions, influence the Company, and in turn, are also affected by the Company's activities. In addition, these stakeholders interact with each other, creating a universe of relationships that the Company needs to manage in order to achieve a better understanding of its operating environment and to deliver a more sustainable performance across its activities.

Shareholders are important to the Company. The Company's relationship with its shareholders is governed by the Company's Articles of Association and provisions of the Governance and Sustainability System which apply to the Company and the Group, of which the Company is a member. As the Company is ultimately wholly-owned by Iberdrola, all ultimate shareholder management activities are carried out by Iberdrola in accordance with its own Shareholder Engagement Policy as published at www.iberdrola.com.

#### **CUSTOMERS**

The Company's main customer is SPERL, as well as external energy suppliers. The Company's other customers are account-managed involving regular direct contact to ensure the services provided are in line with contractual agreements.

#### **ENGAGING WITH STAKEHOLDERS continued**

#### **GOVERNMENT AND REGULATORS**

Governments and regulators play a central role in shaping the energy sector. The Company engages with them directly and through trade associations, responding to issues of concern and providing expertise to support policy development. Through this engagement, the Company aims to contribute to the delivery of a UK energy system that functions in the interests of customers now, and in the future, including achievement of the UK and Scottish Governments' net zero decarbonisation targets.

#### SUPPLIERS AND CONTRACTORS

As part of ScottishPower, the Company's engagement with its suppliers and contractors is driven by the decisions, policies and procedures in place at a ScottishPower level. The directors of the Company ensure that in applying these ScottishPower decisions, policies and procedures they are meeting their duties to the Company. The Company's suppliers have a key role to play in the delivery of the Company's projects and services that will provide a low-carbon future for the UK. The Company aims to develop and maintain strong relationships across its supply base with a focus on health and safety, quality, cost and sustainability. The Company expects its suppliers to operate to a high standard including working in an ethical and sustainable manner, and the Company has a range of policies that all suppliers must adhere to, including the ScottishPower Code of Ethics. The Company has built in cyber security checks and monitoring as part of its tendering and supply chain relationships.

#### COMMUNITY AND ENVIRONMENT

The Company continually strives to be a trusted, respected and integrated part of the community, by operating with integrity, transparency, and working closely within the community to build relationships. The Company is committed to being a good neighbour throughout all its operations to ensure the benefits are realised in local areas by helping to create local employment and enabling improvements to local infrastructure and services.

The Company is committed to reducing its environmental footprint by reducing emissions to air, land and water and preventing environmental harm; minimising energy consumption and use of natural and man-made resources; sourcing material resources responsibly, cutting waste and encouraging reuse and recycling; and protecting natural habitats and restoring biodiversity.

#### MODERN SLAVERY STATEMENT

The term 'modern slavery' covers both slavery and human trafficking. ScottishPower, and so the Company, is committed to human and labour rights and to eliminating modern slavery that could in any way be connected to its business. In accordance with the Modern Slavery Act 2015, ScottishPower has produced its own Modern Slavery Statement, which is subject to annual approval by the board of directors of SPL. This statement is published on the ScottishPower website at: www.scottishpower.com / 'Corporate Governance' / 'Governance and Sustainability System' / 'Social Commitment' / 'ScottishPower Modern Slavery Policy'.

#### INNOVATION

It is crucial that ScottishPower, and therefore the Company, continues to innovate and drive forward towards the goal of a decarbonised smart energy future. By championing innovative technologies, bringing down the costs of decarbonisation and ensuring that no communities are left behind on the road to net zero, ScottishPower continues to lead by example in making sure clean, affordable energy is available to all.

The Company's smart meter asset provision ("MAP") business finances and manages approximately 2.5 million smart meters across Great Britain. Established in 2017, the team comprises procurement, commercial, technical, and operational specialists. Today, it is recognised as a major MAP, thanks to its impressive performance in the energy industry and being part of the wider Iberdrola Group. The Company is focused on significantly growing its asset portfolio to meet the needs of its energy customers, using a diverse global supply chain. The smart MAP business plays an active role in the smart meter rollout programme, with its smart meters used by energy suppliers across the market.

#### **SECTION 172 STATEMENT**

Statement by the directors in performance of their statutory duties in accordance with section 172 of the Companies Act 2006

The Companies (Miscellaneous) Reporting Regulations 2018 requires the directors of SP Smart Meter Assets Limited to give a statement which describes how the directors have had regard to the matters set out in section 172(1) of the Companies Act 2006 when discharging their duty under that section.

#### **SECTION 172 STATEMENT continued**

The directors acknowledge and understand their duties and responsibilities, including that, under section 172 of the Companies Act 2006, a director of a company must act in the way he or she considers, in good faith, would be most likely to promote the success of the company for the benefit of its members as a whole, and in doing so have regard (amongst other matters) to:

- (a) the likely consequences of any decision in the long-term;
- (b) the interests of the company's employees;
- (c) the need to foster the company's business relationships with suppliers, customers and others;
- (d) the impact of the company's operations on the community and the environment;
- (e) the desirability of the company maintaining a reputation for high standards of business conduct; and
- (f) the need to act fairly as between members of the company.

The delivery of the Company's strategy requires the Company to conduct business in a manner benefitting customers through balancing cost and risk while delivering shareholder value and protecting the performance and reputation of the Company by prudently managing risks inherent in the business. In carrying out this strategy, the directors' duties under section 172 of the Companies Act 2006 have been considered.

The directors strongly believe that effective and meaningful engagement with stakeholders is key to promoting the success of the Company. Details of the key stakeholders of the Company, and how it engages with them are as follows:

- Customers: details of how the Company engages with its customers are explained in the 'Customers' section of the Strategic Report, on page 4. During 2023, the Company's board of directors ("the Board") approved the express adoption by the Company of the ScottishPower Data Protection Policy which applies to the processing of any personal data, including customer data, by the Company.
- Communities and the environment: details of how the Company, engages with communities and considers the environment are set out in the 'Community and environment' section of the Strategic Report, on page 5. During 2023, the Board approved the express adoption by the Company of the Iberdrola Stakeholder Engagement Policy which makes provisions regarding the Company's relationship with its stakeholders, including communities.
- Suppliers and contractors: details of how the Company, engages with its suppliers are set out in the 'Suppliers and contractors' section of the Strategic Report, on page 5. During 2023, the Board approved the express adoption by the Company of the ScottishPower Modern Slavery Policy which makes provisions regarding the Company's supply chain.
- Government and regulators: details of how the Company, engages with governments and regulators are set out in
  the 'Government and regulators' section of the Strategic Report, on page 5. During 2023, the Board approved the
  express adoption by the Company of the ScottishPower Political Engagement Policy which makes provisions
  regarding compliance with political engagement rules.

In addition, a statement in relation to the Company's interaction with its shareholders is described in the introduction to the 'Engaging with stakeholders' section of the Strategic Report on page 4.

The directors, both individually and together as a board, consider that the decisions taken during the year ended 31 December 2023 in discharging the function of the Company's board of directors ("the Board") were in conformance with their duty under section 172 of the Companies Act 2006.

The Board is assisted in considering key stakeholders as part of the decision-making process by including stakeholder considerations in board papers as appropriate, and board papers are carefully reviewed and considered by all directors.

ON BEHALF OF THE BOARD

### SP SMART METER ASSETS LIMITED DIRECTORS' REPORT

The directors present their report and audited Accounts for the year to 31 December 2023.

#### INFORMATION CONTAINED WITHIN THE STRATEGIC REPORT

The directors have chosen to disclose information on the following, required by the Companies Act 2006, to be included in the Directors' Report, within the Strategic Report, found on pages 1 to 6:

- · information on financial risk management and policies;
- information regarding future developments of the Company's business; and
- · information in relation to innovation activities.

#### **RESULTS AND DIVIDEND**

The net profit for the year amounted to £10.1 million (2022 £20.5 million). A dividend of £13.1 million was paid during the year (2022 £14.4 million).

#### DIRECTORS

The directors who held office during the year were as follows:

Katherine O'Hagan (appointed 11 May 2023) Graeme Brown (resigned 12 May 2023) Nicola Connelly (resigned 18 June 2024)

Caireen Devanney was appointed on 27 June 2024.

#### **DIRECTORS' INDEMNITY**

In terms of the Company's Articles of Association, a qualifying indemnity provision is in force for the benefit of all the directors of the Company and of associated companies.

#### STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RESPECT OF THE ANNUAL REPORT AND ACCOUNTS

The directors are responsible for preparing the Annual Report and Accounts in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with UK accounting standards and applicable law (UK Generally Accounting Practice), including Financial Reporting Standard 101 'Reduced Disclosure Framework' ("FRS 101").

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Company and to prevent and detect fraud and other irregularities.

Under applicable law and regulations, the directors are also responsible for preparing a Strategic Report and a Directors' Report that complies with that law and those regulations.

### SP SMART METER ASSETS LIMITED DIRECTORS' REPORT continued

#### STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RESPECT OF THE ANNUAL REPORT AND ACCOUNTS continued

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the UK governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

#### Disclosure of information to auditor

Each of the directors in office at the date of this Annual Report and Accounts confirms that:

- so far as they are aware, there is no relevant audit information of which the Company's auditor is unaware; and
- they have taken all the steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of section 418 of the Companies Act 2006.

#### **AUDITOR**

KPMG LLP was re-appointed as the auditor of the Company for the year ending 31 December 2024.

ON BEHALF OF THE BOARD

Cameen Devanney

Caireen Devanney

Director

25 September 2024

### INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SP SMART METER ASSETS LIMITED

#### Opinion

We have audited the financial statements of SP Smart Meter Assets Limited ("the Company") for the year ended 31 December 2023 which comprise the Statement of financial position, Income statement and statement of comprehensive income, Statement of changes in equity and related notes, including the principal accounting policies in Note 2.

In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 31 December 2023 and of its profit for the year then ended;
- have been properly prepared in accordance with UK accounting standards, including FRS 101 Reduced Disclosure Framework; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

#### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities are described below. We have fulfilled our ethical responsibilities under, and are independent of the Company in accordance with, UK ethical requirements including the FRC Ethical Standard. We believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion.

#### Going concern

The directors have prepared the financial statements on the going concern basis as they do not intend to liquidate the Company or to cease its operations, and as they have concluded that the Company's financial position means that this is realistic. They have also concluded that there are no material uncertainties that could have cast significant doubt over its ability to continue as a going concern for at least a year from the date of approval of the financial statements ("the going concern period").

In our evaluation of the directors' conclusions, we considered the inherent risks to the Company's business model and analysed how those risks might affect the Company's financial resources or ability to continue operations over the going concern period.

Our conclusions based on this work:

- we consider that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate;
- we have not identified, and concur with the directors' assessment that there is not, a material uncertainty related to
  events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue
  as a going concern for the going concern period.

However, as we cannot predict all future events or conditions and as subsequent events may result in outcomes that are inconsistent with judgements that were reasonable at the time they were made, the above conclusions are not a guarantee that the Company will continue in operation.

#### Fraud and breaches of laws and regulations - ability to detect

Identifying and responding to risks of material misstatement due to fraud

To identify risks of material misstatement due to fraud ("fraud risks") we assessed events or conditions that could indicate an incentive or pressure to commit fraud or provide an opportunity to commit fraud. Our risk assessment procedures included:

- Enquiring of directors, the internal audit function, the Company's legal function and the compliance function and
  inspection of policy documentation as to the Company's high-level policies and procedures to prevent and detect
  fraud, including the internal audit function, and the Company's channel for "whistleblowing", as well as whether
  they have knowledge of any actual, suspected or alleged fraud.
- · Reading Board meeting minutes.
- Using analytical procedures to identify any unusual or unexpected relationships.

### INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SP SMART METER ASSETS LIMITED continued

#### Fraud and breaches of laws and regulations - ability to detect continued

We communicated identified fraud risks throughout the audit team and remained alert to any indications of fraud throughout the audit.

As required by auditing standards, we performed procedures to address the risk of management override of controls, in particular the risk that management may be in a position to make inappropriate accounting entries.

On this audit we do not believe there is a fraud risk related to revenue recognition because, the Company's revenues consist entirely of routine, non-complex transactions which are subject to systematic processing and do not require significant judgements.

We did not identify any additional fraud risks.

We performed procedures including:

- Identifying journal entries and other adjustments to test based on risk criteria and comparing the identified entries
  to supporting documentation. These included those posted by senior finance management and those posted to
  unusual accounts.
- Assessing whether the judgements made in making accounting estimates are indicative of a potential bias.

Identifying and responding to risks of material misstatement related to compliance with laws and regulations. We identified areas of laws and regulations that could reasonably be expected to have a material effect on the financial statements from our general commercial and sector experience, through discussion with the directors and others management (as required by auditing standards), and discussed with the directors and other management the policies and procedures regarding compliance with laws and regulations.

We communicated identified laws and regulations throughout our team and remained alert to any indications of non-compliance throughout the audit.

The potential effect of these laws and regulations on the financial statements varies considerably.

Firstly, the Company is subject to laws and regulations that directly affect the financial statements including financial reporting legislation (including related companies legislation), distributable profits legislation and taxation legislation, and we assessed the extent of compliance with these laws and regulations as part of our procedures on the related financial statement items.

Secondly, the Company is subject to many other laws and regulations where the consequences of non-compliance could have a material effect on amounts or disclosures in the financial statements, for instance through the imposition of fines or litigation. We identified the following areas as those most likely to have such an effect: GDPR compliance, health and safety legislation, fraud, corruption, bribery legislation and environmental protection legislation. Auditing standards limit the required audit procedures to identify non-compliance with these laws and regulations to enquiry of the directors and other management and inspection of regulatory and legal correspondence, if any. Therefore if a breach of operational regulations is not disclosed to us or evident from relevant correspondence, an audit will not detect that breach.

#### Context of the ability of the audit to detect fraud or breaches of law or regulation

Owing to the inherent limitations of an audit, there is an unavoidable risk that we may not have detected some material misstatements in the financial statements, even though we have properly planned and performed our audit in accordance with auditing standards. For example, the further removed non-compliance with laws and regulations is from the events and transactions reflected in the financial statements, the less likely the inherently limited procedures required by auditing standards would identify it.

In addition, as with any audit, there remained a higher risk of non-detection of fraud, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. Our audit procedures are designed to detect material misstatement. We are not responsible for preventing non-compliance or fraud and cannot be expected to detect non-compliance with all laws and regulations.

#### INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SP SMART METER ASSETS LIMITED continued

#### Strategic report and directors' report

The directors are responsible for the strategic report and the directors' report. Our opinion on the financial statements does not cover those reports and we do not express an audit opinion thereon.

Our responsibility is to read the strategic report and the directors' report and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work:

- we have not identified material misstatements in the strategic report and the directors' report;
- in our opinion the information given in those reports for the financial year is consistent with the financial statements; and
- in our opinion those reports have been prepared in accordance with the Companies Act 2006.

#### Matters on which we are required to report by exception

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

We have nothing to report in these respects.

#### **Directors' responsibilities**

As explained more fully in their statement set out on pages 7 to 8, the directors are responsible for: the preparation of the financial statements and for being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

#### **Auditor's responsibilities**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our opinion in an auditor's report. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

A fuller description of our responsibilities is provided on the FRC's website at www.frc.org.uk/auditorsresponsibilities.

#### The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

At 1 January 2023		12.2	12.2
Net profit for the year	-	10.1	10.1
Dividends		(13.1)	(13.1)
At 31 December 2023		9.2	9.2

<sup>(</sup>a) At 31 December 2023, the Company had one ordinary share of £1 each (2022 one). The holder of the ordinary share is entitled to dividends as declared from time to time; amounts on the capitalisation of profits and reserves; and notice and attendance at general meetings of the Company, with the member entitled to one vote on a show of hands and on a poll one vote for the share held.

The accompanying Notes 1 to 15 are an integral part of the Income statement and statement of comprehensive income and the Statement of changes in equity for the year ended 31 December 2023.

<sup>(</sup>b) Retained earnings comprise the cumulative balance of profits and losses recognised in the financial statements as adjusted for transactions with the shareholder, principally dividends.

#### 1 BASIS OF PREPARATION

#### A COMPANY INFORMATION

SP Smart Meter Assets Limited, registered company number SC554085, is a private company limited by shares, incorporated in Scotland and its registered office is 320 St. Vincent Street, Glasgow, G2 5AD.

#### B BASIS OF PREPARATION

#### **B1** BASIS OF PREPARATION OF THE ACCOUNTS

The Company is required by law to prepare Accounts and to deliver them to the Registrar of Companies. The Accounts are prepared in accordance with the Accounting Policies set out in Note 2. Monetary amounts are presented in pounds Sterling and are rounded to the nearest hundred thousand unless otherwise indicated. The Accounts are prepared on the historical cost basis apart from certain financial liabilities which are measured at fair value.

The Accounts have been prepared in accordance with Financial Reporting Standard 101 'Reduced Disclosure Framework' ("FRS 101"). In preparing these financial statements, the Company has applied the recognition, measurement and disclosure requirements of international accounting standards ("IAS") as adopted by the UK ("UK-adopted IAS") in conformity with the requirements of the Companies Act 2006 including newly effective IAS for the year ended 31 December 2023 (refer to Note 1C). In applying FRS 101, the Company has made amendments where necessary in order to comply with the Companies Act 2006 and has set out below where FRS 101 disclosure exemptions have been taken:

- the preparation of a Statement of cash flows and the related notes;
- comparative period reconciliations for intangible assets and property, plant and equipment;
- disclosures in respect of deferred tax assets and liabilities related to Pillar Two model rules income taxes;
- certain disclosures regarding revenue;
- disclosures in respect of transactions with wholly-owned subsidiaries of Iberdrola, S.A.;
- disclosures in respect of capital management;
- the effects of new, but not yet effective, IAS pronouncements; and
- disclosures in respect of the compensation of key management personnel.

As the consolidated financial statements of Iberdrola, S.A. include the equivalent disclosures, the Company has also taken the exemptions under FRS 101 available in respect of certain disclosures required by IFRS 13 'Fair Value Measurement' and the disclosures required by IFRS 7 'Financial Instruments: Disclosures'.

#### **B2 GOING CONCERN**

The financial statements have been prepared on a going concern basis which the directors consider to be appropriate for the following reasons.

The principal activity of the Company is to undertake the provision of smart meter assets within the group headed by Scottish Power UK plc ("the SPUK Group"), the Company's intermediate parent company. The Company's cash flows are therefore dependent on the continuation, volume, and pricing of those operations and have been considered as part of the SPUK Group's cash flow forecasts, on which the directors of the SPUK Group have performed an assessment of reasonably possible downsides.

To meet its working capital requirements, the Company participates in a UK centralised treasury function operated by the Company's intermediate parent company, SPL, the parent company of SPUK. ScottishPower's treasury function works closely with Iberdrola to manage the Company's funding requirements. There has been no indication that these arrangements may change.

The directors have performed a going concern assessment which indicates that, in reasonably possible downsides, the Company will require additional funds, through funding from SPUK, to meet its liabilities as they fall due for at least twelve months from the date of approval of these financial statements, the going concern assessment period.

SPUK has indicated its intention to continue to make available such funds as are needed by the Company during the going concern period. As with any company placing reliance on other group entities for financial support, the directors acknowledge that there can be no certainty that this support will continue although, at the date of approval of these financial statements, they have no reason to believe that it will not do so.

#### 1 BASIS OF PREPARATION continued

Consequently, the directors are confident that the Company will have sufficient funds to continue to meet its liabilities as they fall due for at least twelve months from the date of approval of the financial statements and, therefore, have prepared the financial statements on a going concern basis.

#### C IMPACT OF NEW IAS

As noted above, these Accounts have been prepared in accordance with UK-adopted IAS. In preparing these Accounts, the Company has applied all relevant standards and interpretations that have been adopted by the UK as of the date of approval of these Accounts and that are mandatory for the financial year ended 31 December 2023.

For the year ended 31 December 2023, the Company has applied the following standards and amendments for the first time:

Standard	Note
IFRS 17 'Insurance Contracts' including 'Amendments to IFRS 17' and 'Initial Application of IFRS 17	(a)
and IFRS 9 - Comparative Information	(a)
<ul> <li>Amendments to IAS 1 'Presentation of Financial Statements' and IFRS Practice Statement 2 'Making Materiality Judgements': 'Disclosure of Accounting Policies'</li> </ul>	. 10)
<ul> <li>Amendments to IAS 8 'Accounting Policies, Changes in Accounting Estimates and Errors: Definition of Accounting Estimates'</li> </ul>	(a)
<ul> <li>Amendments to IAS 12 'Income Taxes: Deferred Tax related to Assets and Liabilities arising from a Single Transaction'</li> </ul>	(a)
Amendments to IAS 12 'Income Taxes: International Tax Reform - Pillar Two Model Rules'	(a)

(a) The application of these standards and amendments has not had a material impact on the Company's accounting policies, financial position or performance.

#### 2 JUDGEMENTS, ESTIMATION UNCERTAINTIES AND PRINCIPAL ACCOUNTING POLICIES

Management may be required to make a number of judgements and assumptions regarding the future and about other sources of estimation uncertainty at the end of the reporting period that have a significant risk of resulting in a material adjustment to the reported amounts of assets and liabilities within the next financial year. The Company has no such significant judgements or estimation uncertainties.

Management has also considered a non-significant judgement relating to climate change. No material impact on the judgements and estimates made in the preparation of the financial statements has been identified. This consideration focussed on the Company's going concern position.

Additionally, consideration has been given to any estimates over the longer-term which should be disclosed to allow for an understanding of the financial statements. The Company has no estimates of this nature to disclose.

#### PRINCIPAL ACCOUNTING POLICIES

The principal accounting policies applied in preparing the financial statements are set out below. In the process of determining and applying these accounting policies, judgement, apart from those involving estimations (as noted above), is often required that can significantly affect the amounts recognised in the financial statements. Management has made no such judgements.

- A INTANGIBLE ASSETS
- B PROPERTY, PLANT AND EQUIPMENT
- C IMPAIRMENT OF INTANGIBLE ASSETS AND PROPERTY, PLANT AND EQUIPMENT
- **D** FINANCIAL INSTRUMENTS
- E REVENUE
- **F** OTHER OPERATING RESULTS
- G TAXATION

#### A INTANGIBLE ASSETS

The costs of acquired computer software, such as licences, that are expected to generate economic benefits over a period in excess of one year, are capitalised on the basis of the costs incurred to acquire, and bring to use, the specific

#### 2 JUDGEMENTS, ESTIMATION UNCERTAINTIES AND PRINCIPAL ACCOUNTING POLICIES continued

software. Amortisation of acquired computer software is on a straight-line basis over their operational lives, which is generally up to four years.

#### B PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment is stated at cost and depreciated on a straight-line basis over the estimated operational lives of the assets once commissioned. Property, plant and equipment includes directly attributable costs. Reviews of the estimated remaining lives and residual values of property, plant and equipment are undertaken annually. Residual values are assessed based on prices prevailing at each reporting date.

The main depreciation period used by the Company is set out below:

•	•			Ye	ars
		· .	1	<del>o -</del>	- 15
Meters and measuring devices					

#### C IMPAIRMENT OF INTANGIBLE ASSETS AND PROPERTY, PLANT AND EQUIPMENT

At each reporting date, the Company reviews the carrying amount of its intangible assets and property, plant and equipment to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset (the greater of its value-in-use and its fair value less costs to sell) is estimated in order to determine the extent of the impairment loss (if any). In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An impairment loss is recognised if the carrying amount of an asset exceeds its estimated recoverable amount. Where the asset does not generate cash flows that are independent from other assets, the Company estimates the recoverable amount of the cash generating unit to which the asset belongs. Any impairment is recognised in the Income statement and statement of comprehensive income in the period in which it is identified. Impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been recognised, net of depreciation or amortisation, if no impairment loss had been recognised.

#### **D FINANCIAL INSTRUMENTS**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

#### **D1 FINANCIAL ASSETS**

#### D1.1 CLASSIFICATION

Financial assets are classified as being measured at amortised cost. The classification of financial assets depends on the Company's business model for managing them to generate cash flows.

The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. The business model of the Company does not depend on the intentions of management for an individual instrument. Therefore, it is not an instrument-by-instrument classification approach but determined from a higher level of aggregation.

A financial asset is measured at amortised cost if it meets both of the following conditions:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal amount outstanding. This assessment is referred to as the 'SPPI' test.

Financial assets are only subsequently reclassified when the Company changes its business model for managing them. Reclassifications are effective from the first day of the first reporting period following the change in business model. Such reclassifications are expected to be infrequent.

#### 2 JUDGEMENTS, ESTIMATION UNCERTAINTIES AND PRINCIPAL ACCOUNTING POLICIES continued

#### **D1.2 RECOGNITION AND MEASUREMENT**

#### (a) Initial recognition and measurement

All financial assets, except for trade receivables which are initially recognised when they originate, are initially recognised when the Company becomes party to the contractual provisions of the instrument.

Financial assets are initially measured at fair value with the exception of trade receivables without a significant financing component which are measured at the transaction price determined under IFRS 15 'Revenue from Contracts with Customers' ("IFRS 15").

#### (b) Subsequent measurement and gains and losses

Financial assets classified as amortised cost are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by expected credit losses. Interest income, foreign exchange gains and losses, and net credit losses are recognised in the Income statement and statement of comprehensive income. Any gain or loss on derecognition is also recognised in the Income statement and statement of comprehensive income.

#### (c) Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when either the rights to receive cash flows from the asset have expired; there is no reasonable expectation of recovering all, or a portion of, the contractual cash flows.

#### **D2 FINANCIAL LIABILITIES**

#### **D2.1 CLASSIFICATION**

Financial liabilities are classified as measured at amortised cost.

#### **D2.2 RECOGNITION AND MEASUREMENT**

#### (a) Initial recognition and measurement

All financial liabilities are recognised initially at fair value and, in the case of loans and other borrowings and payables, net of directly attributable transaction costs.

#### (b) Subsequent measurement and gains and losses

Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in the Income statement and statement of comprehensive income. Any gain or loss on derecognition is also recognised in the Income statement and statement of comprehensive income. This is the category most relevant to the Company as it includes interest-bearing loans and borrowings, and trade and other payables.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees, or costs that are an integral part of the effective interest rate. The effective interest charge is included as Finance costs in the Income statement and statement of comprehensive income.

#### (c) Derecognition

The Company derecognises a financial liability when the obligation under that liability is discharged, cancelled or has expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, the original liability is derecognised and a new liability recognised. The difference in their respective carrying amounts is recognised in the Income statement and statement of comprehensive income.

#### **E REVENUE**

The Company recognises revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which it expects to be entitled in exchange for those goods and services. Revenue is earned wholly within the UK and is wholly attributable to the principal activity of the Company.

Smart meter provision is a performance obligation satisfied over time as the customer benefits from the service as it is provided. The customer benefits from the Company's service evenly throughout the year and therefore time is used to measure progress towards complete satisfaction of the performance obligation. Revenue is recognised on a straight-line basis throughout the year based on the agreed contractual rate.

### 2 JUDGEMENTS, ESTIMATION UNCERTAINTIES AND PRINCIPAL ACCOUNTING POLICIES continued F OTHER OPERATING RESULTS

Other operating results primarily comprise of income relating to compensation received from energy suppliers in relation to early termination charges associated with MRA contracts.

#### **G TAXATION**

Assets and liabilities for current tax are calculated using the tax rates that have been enacted, or substantively enacted, at the reporting date.

Deferred tax is the tax expected to be payable, or recoverable, on the difference between the carrying amounts of assets and liabilities in the Statement of financial position and the corresponding tax bases used in the computation of taxable profits (temporary differences), and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which deductible temporary differences, unused tax losses or credits can be utilised. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated on a non-discounted basis at the tax rates that are expected to apply in the period in which the liability is expected to be settled, or the asset realised, based on tax rates and laws enacted, or substantively enacted, at the reporting date. Deferred tax is charged to the Income statement and statement of comprehensive income, except where it relates to items charged or credited to equity (via the Statement of comprehensive income), in which case the deferred tax is also recognised in equity and is shown in the Statement of comprehensive income.

Tax on the profit or loss for the year comprises current and deferred tax. Tax is recognised in the Income statement and in the Statement of comprehensive income.

#### 3 INTANGIBLE ASSETS

4.5

4.6

#### 11 INCOME TAX continued

Tax on profit for the year varied from the standard rate of UK Corporation Tax applicable to the Company as follows:

	2023	2022
	£m	£m
Corporation Tax at 23.5% (2022 19%)	3.4	4.8
Adjustments in respect of prior years	0.3	-
Impact of tax rate change on current year tax	1.1	4.3
Non-deductible expenses and other permanent differences	(0.3)	(4.5)
Income tax for the year	4.5	4.6

Legislation was enacted on 10 June 2021 under the Finance Act 2021 that increased the UK Corporation Tax charge to 25% from 1 April 2023. Accordingly, the deferred tax balances at 31 December 2023 have been provided at 25%, to reflect the rate that the temporary differences are expected to reverse at.

#### 13 EMPLOYEE INFORMATION

The Company has no employees (2022 none). Details of directors' remuneration are set out in Note 14(a).

#### 14 RELATED PARTY TRANSACTIONS

#### (a) Directors' remuneration

The total remuneration of the directors that provided qualifying services to the Company is shown below. As these directors are remunerated for their work for the ScottishPower Group, it has not been possible to apportion the remuneration specifically in respect of services to the Company. All three (2022 both) of the directors were remunerated by other ScottishPower companies during the year.

•	2023 £000	2022 £000
Aggregate remuneration in respect of qualifying services	541	424
Number of directors who exercised share options	3	2
Number of directors who received shares under a long-term incentive scheme	1	1
Number of directors accruing retirement benefits under a defined benefit scheme	. 2	1
	2023	2022
Highest paid director	£000	£000
Aggregate remuneration	405	320

<sup>(</sup>i) The highest paid director received shares under a long-term incentive scheme during both periods.

#### (b) Immediate and ultimate parent company

The immediate parent company is SPRH. Copies of the accounts of SPRH may be obtained from its registered office at 320 St. Vincent Street, Glasgow, G2 5AD.

The directors regard Iberdrola, S.A. (incorporated in Spain) as the ultimate parent company, which is also the parent company of the largest group in which the results of the Company are consolidated. The parent company of the smallest group in which the results of the Company are consolidated is SPUK.

Copies of the consolidated accounts of Iberdrola, S.A. may be obtained from Iberdrola, S.A., at its registered office, Torre Iberdrola, Plaza Euskadi 5, 48009, Bilbao, Spain. Copies of the consolidated accounts of SPUK may be obtained from its registered office, 320 St. Vincent Street, Glasgow, G2 5AD.

The Company has no other related undertakings in addition to the parent undertakings disclosed above.

<sup>(</sup>ii) The highest paid director exercised share options during both periods.
